

High-Precision Ball Bearings

**BIOCOMPATIBILITY ACCORDING TO ISO 10993**  
One Step Ahead of the Future

**KAMAN**

Specialty Bearings & Engineered Products

# PREMIER PROVIDER OF HIGH PRECISION BALL BEARINGS

---

GRW is an internationally operating industrial company that holds a globally leading position in the development, production and marketing of **high precision miniature ball bearing solutions** on the international market. Our target is developing successful partnerships with our customers through excellent products and outstanding services. Continuous optimization of our products and processes ensures growth and sustainable corporate success.

At the end of 2015 GRW became a proud member of the KAMAN Specialty Bearings and Engineered Products Group, located in the United States. Our superior range of ball bearings are ideally suited for Healthcare, Aviation & Defense, high-speed Spindle Bearings as well as Industrial applications.

## **BIOCOMPATIBILITY** according to ISO 10993 – ONE STEP AHEAD OF THE FUTURE

---

Be on the safe side with biocompatible ball bearing materials\* from **GRW**:

**Corrosionresistant ring- and ball steels as well as ceramics ideally suited for healthcare applications**

**Mediaresistant shields and seals**

**Retainer materials for your application  
- plus NSF-certified materials (e.g. H1/H2)**

**Best type of lubricants tailored for your  
specific application**

Contact one of our specialists to learn more about the advantages of this series:

**Competence-Team Healthcare at: +49 (0) 9365-819 487**

\* The meeting of the requirements of the norm DIN EN ISO10993 has been confirmed and approved by an independent and accredited test laboratory.
